DETAILED ACTION

This Office action is in response to the amendment filed November 14, 2006 in which the specification and claims 1, 7, 9 and 10 were amended and claims 12-15 were added.

The objection to the specification is withdrawn in view of the amendment to the specification.

The previous rejections of the claims are withdrawn in view of the amendment to the claims.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Since steps (f) to (g) are arbitrary, the process provides no antecedent support for when steps (g) and (h) precede step (f). Steps (g) and (h) contain the mixture of the biomass and the coal slurry, whereas step (f) does not.

3. Claims 1-6 and claims 9-15 are allowable because the prior art fails to teach or suggest the claimed processes. The novelty lies in the step of treating the ground product or mixture in oil at 120-300 °C under a pressure which is higher than the vapor pressure of the oil at the recited temperature and the addition of a gasifying catalyst.
